

Are you.....

Thinking of Starting a Business?

If you are considering starting a small business, then this workshop is a crucial first step. Topics of discussion include the traits of successful entrepreneurs, market research, legal structures for your business, estimating start-up costs and cash flow projections, financing alternatives, failure factors, and business planning.

Since lack of planning is one of the top reasons new businesses fail, attending this comprehensive workshop may be one of the most important decisions you make prior to opening your business.

The University of Georgia Small Business Development Center and the Service Corps of Retired Executives (SCORE) are offering this workshop to help answer your questions about the steps involved in starting a business.
